

Clothing Strikers Expected to Sign Agreement To-day

Standard of Production and Quantity of Output Still Unsettled, but Adjustment Is Anticipated

Continued negotiations over the terms of the agreement between the Clothing Manufacturers' Association and the Amalgamated Clothing Workers' Union, which was expected to be signed yesterday, have not yet resulted in a final agreement. It was said that the agreement was still being worked out, and that the signing probably would take place at 3 o'clock to-day.

The most important of the remaining points of the agreement to be settled is that involving the standard of production and what shall be considered a day's work. On this point, one of the most important bearings on the cost of finished garments, there has been considerable discussion, based upon individual facilities and other shop conditions.

Under the new agreement, separate contracts will be executed by clothing factories with their employees, the contracts to follow the general lines of the agreement covering the strike to-day. While it has been anticipated that several large concerns have already settled with their workers and will resume operations at once, a representative of the manufacturers' association said that this had been done without the consent of the association.

Sidney Hillman, representing the clothing workers, conferred yesterday with Max D. Steuer, as did a number of the manufacturers. Mr. Hillman was said to have smoothed out the remaining differences by direct negotiations with the manufacturers to fight and to-morrow morning.

Following a meeting of the clothing manufacturers at 42 East Eleventh street yesterday afternoon, it was said that the strike was practically ended. It was said, however, that the cutters will receive a standard minimum wage in all shops of \$51 per week.

British Workers Lift Ban on Coal Movement

LONDON, May 31 (By The Associated Press).—The embargo on the transport of coal, which was placed some time ago by the railway and transport workers as a move in sympathy with the striking coal miners, was entirely lifted to-day. Therefore coal for all purposes hereafter will be handled freely.

Indications point to a general relaxation of the government's new proposals for the control of the coal trade. Some of the miners in South Wales, Scotland, Derbyshire, Yorkshire and other large coal fields already have decided to return to work.

In a statement to-day, however, Frank Hodges, secretary of the Miners' Union, virtually offers to drop the pool idea which heretofore has prevented a settlement, provided the owners are willing to offer a higher wage standard. He suggests 80 per cent above the 1914 scale as the new standard, but the owners are not likely to agree.
